# INDUSTRY PROFILE PHARMACEUTICAL PACKAGING

Pharmaceutical Packaging is a vital component to your manufacturing capacity. Whether you are troubleshooting conveyors systems or installing **integrated lines**, or just looking for **support** of your facility, **Industrial Auto-mated Systems, Inc. (IAS)** has the expertise on staff.

**IAS** has helped some of our end users design facilities for complete **horizontal and vertical integration** which has led to improved operations, supply chain management and maintenance.

Our broad industry experience can help improve your overall Pharmaceutical Packaging Operations by identifying optimum solutions evolving around equipment **control systems, multi-level networks** and **information management**.

We have helped **design, develop and implement** the latest technologies whether it is within machine controls – **drives, motion control, machine safety** or information – **on-machine HMI** or complex **SCADA/MES** solutions.
